For President---1912
WILLIAM HOWARD TAFT, OF OHIO.

THE SOFTEST JOB IN NEVADA.

Instead of the leading politicians of Nevada aspiring for senatorial, congressional and gubernatorial honors where a handsome salary is attached to the office it appears strange that some enterprising person does not announce himself as a candidate for the receivership of the State Bank and Trust company.

The salary attached to this office is something like \$10,000 a year with traveling expenses and an allowance for an assistant. The assistant handles the work, while the receiver can use the traveling expenses by making frequent trips to California and other states. The depositors of this defunct institution have long since given up all hope of securing dividends as the income is barely sufficient to keep the receiver and allow him the luxury he could afford prior to his appointment.

For a soft snap this receivership has any political berth beat in every way imaginable for there is no hinderance offered to the official actions of the receiver. He is under no obligations to any court, so it appears, and can continue to run the office as long as there is hope of securing sufficient funds to pay his salary and also the salary of his assistant.

Again we wonder why there is not a horde of aspirants after this situation for it has a United States senatorship beat off the boards, for no campaigning is necessary and but a few mental qualifications are required.

TONOPAH'S WELL EARNED REWARD.

It is not to be wondered at that the entire world is now turning its attention to Nevada and to Tonopah in particular. That this camp is the greatest silver producing camp in America, is a fact that is just being realized by the nation at large and now Tonopah has commenced to reap the reward of its labors. Tonopah is an established camp with a reputation for legitimate mining and it has been earning of this reputation that various obstacles were overcome.

The old saying that honesty has its own reward has come true with regard to Tonopah. During the early history of this district the wild caters flourished without hinderance. As a result thousands of dollars of worthless mining stock was sold throughout the east and middle west. Even in the west the stock was distributed and it was not until months afterwards that the purchaser discovered that he had been gold bricked. Such tactics worked a great injustice upon Tonopah and it was not for several years afterwards that it became known that the death knell had been sounded to the unscrupulous mining operator.

Honest publicity never injured any enterprise and in this case Tonopah today is entitled to every line of publicity that can be secured. The camp has secured its hard earned laurels, and with its reputation once established, as it is at the present time, the people of this district can now rejoice and enjoy the reward that has arrived after years of striving.

THE JOURNAL'S FAKE CLAIM.

The Reno Journal, in its editorial columns of Thursday, announces that it takes "pardonable pride" in issuing an extra Wednesday in handling the news of the appointment of George Wingfield to the senate. Furthermore the editorial states that the Journal was the only paper to publish the news of the appointment on the day it occurred.

The Bonanza wishes to differ with the Journal regarding the credit for being the first paper to publish the news. The Bonanza was the first paper to publish the appointment and it was not forced to issue an extra at that. The Journal is commenting upon its own performance states: "The paper was not only the only newspaper in the state to publish the news on the day it happened but it was given to the public without delay."

For confirmation of the fact that the Bonanza was up to the minute in publishing the news we respectfully refer the editor of the Journal to Wednesday's issue of this paper. The Journal should confine its latitude to Reno, or Washoe county and not embrace too much territory in its remarks. We would also suggest that the Journal stick a little closer to the truth when making such assertions, knowing that suggestions of this sort will be as welcome as the small pox. Nevertheless we feel called upon to offer the advice, the same being tendered in good faith and with the hope that it will be followed.

The claiming of false glory might be just the correct thing in other states, but in Nevada it is not considered quite honorable. Hence the advice.

SIGNATURES HAVE BEEN ATTACHED TO 500 SCHOOL BONDS

CERTIFICATES WILL BE FORWARDED TO PURCHASERS IN CHICAGO

All formalities attending the sale of the \$50,000 worth of school bonds were concluded today when the signatures of all the necessary officials were attached. The bonds are in denominations of \$100 each, making 500 bonds in all that were signed by the officials.

Henry C. Schmidt, clerk of the school board, was the first to sign the bonds. He was followed by Frank Manuix, county treasurer, and today W. W. Booth, president of the school board, affixed his million dollar signature to the certificates.

The bonds have been purchased by a Chicago firm and as soon as they are turned over to the purchasers active work in the construction of the new school building will be commenced. It is the idea of the trustees to have the building completed and ready for occupancy by the time the fall term starts. This may not prove possible and should the term start before the building is completed, the students will move into the new structure at the earliest date afterwards.

Irving Macdonald, formerly head of the firm of Macdonald & Moran, has opened offices at No. 205 State Bank Building and is prepared to do surveying and patenting of mining claims, mapping and blue printing. Promoting and handling mining properties.

Mr. Macdonald is also connected with several large firms dealing in California lands. Call and get literature and information from him.
